

# Blow Mold Labels

## Looking to lower your total cost on Blow Mold labels?

With Inland, not only will you get a lower total cost, you will get a label that looks and performs better. Inland is a qualified, domestic Blow Mold label printer who can produce high quality labels for both PP and HDPE containers. Coupled with our ink and coating technologies, we have developed partnerships with suppliers whose material is proven to reduce blistering and perform better during the molding process, saving you time and money.

### Inland's Blow Mold labels offer you:

- ✓ Offset printing for vibrant colors and crisp graphics
- ✓ Eco friendly soy based inks and coatings
- ✓ Counter pressure, rotary, and flat-bed die cutting for tight cut tolerances
- ✓ FDA compliance for direct and indirect food contact
- ✓ Fast turnaround times for increased speed-to-market
