

Pressure Sensitive Labels

Looking for Pressure Sensitive labels that drive sales?

In today's marketplace, packaging only has seconds to grab the attention of the consumer. You need a package that truly stands out from the competition. Inland's Pressure Sensitive labels, with a variety of substrates, inks, and specialty enhancements available, can help your brand dominate the marketplace. Package decoration is important, but having a great looking product on the shelf is what drives your sales, which is why we focus on speed-to-market. We've streamlined our process so lead times are shorter, allowing you to keep up with a fast paced market.

Inland's Pressure Sensitive Labels offer you:

- ✓ Flexographic printing for economic short runs and quick turnaround times
- ✓ Gravure printing for long run efficiencies
- ✓ Specialty die-cutting for unique shapes
- ✓ Backside printing, foil stamping, scratch n sniff, textured inks, perforations and a variety of additional label enhancements that draw attention to your brand
- ✓ Virtually unlimited substrate options, including white and metalized paper; clear, white, and metalized film, to accurately showcase your brand
